# Enjoy **FREEDOM & FLEXIBILITY** with a Briter Power System

Whether you place your home near power access or park off-the-grid, Briter solar and lithium-ion batteries provide you the freedom to do so in safety, comfort, and style. Location is no longer an issue with a Briter power system! ***Experience the freedom that Briter brings!***

**LIGHTWEIGHT** Half the weight of lead-acid batteries

**CONVENIENT** With no need for water, the electrodes won't corrode

**ENERGY** Twice the energy of lead-acid or AGM batteries

**FAST CHARGING** 1.5 hrs if the correct charger is used

**ENVIRONMENTALLY-FRIENDLY** Optimized for solar-energy storage

**POWER** Can be linked in parallel for increased amperage

**BATTERY HEALTH** Battery management system continually checks for system health and reads how well the cells are charging, discharging, etc.

## Worth the **INVESTMENT**

From quality construction designed for long-term sustainability, to cutting-edge technology, you won't find another battery like Briter on the market. We've taken great care in the mechanical construction of the battery by adding extra safety features. ***Experience the quality that Briter brings!***

**LCD DISPLAY** Double-check the battery's charge and your DC power system with Briter's unique LCD display

**BLUETOOTH** Energy levels can be monitored from your device with the Bluetooth option

**LONG LIFE** Our lithium-ion battery can last 2000-5000 cycles

**THE BEST WARRANTY IN THE U.S.** We offer a 5-year warranty with each purchase. If parts are needed after that point, the batteries can be "reset" with new parts. No need to buy a completely new battery!

**LOWEST COST** per energy cycle

## WHAT CUSTOMERS ARE SAYING

The workmanship on the installation was superb. After using their batteries over the last eight months, they have proven to be a perfect choice for our needs and we are extremely pleased with them. Their after-sale customer service is excellent as well." —Larry N.

"We highly recommend Briter Products and their Lithium-ion battery solution. We are very satisfied with both the batteries and our experience with Briter Products." —Phil & Helen T.

## CREATING A SELF-SUSTAINABLE LIFE *Solar Systems Provide Freedom, Security, Quality, and Reliability*

A truly self-sustainable lifestyle needs a renewable power source. Briter's customized solar system meets that need. Not only is it environmentally friendly, you won't have to worry about depending on the electrical grid. At Briter, we customize and install solar systems, giving you the freedom to travel and park your home anywhere you'd like. Call today to schedule your free consultation, and create a Briter future.
